

Republic Intelligent Transportation Services (ITS) is a service company with a core business of streetlight and traffic signal maintenance. We are by culture, customer focused, entrepreneurial, and growth-oriented. Our traffic signal/street light maintenance contracts typically encompass all aspects associated with the maintenance, repair, and replacement of traffic signals and streetlights. Republic's consistent growth in this business continually results in our need to expand the size of our team of IMSA certified traffic signal technicians in various locations nation wide. We are currently looking for an IMSA certified Level II Traffic Signal Technician in our Dallas, TX region.

The successful candidate will be responsible for construction and maintenance of traffic signals; troubleshooting traffic signal and street light problems; and will manage various electrical projects for public and private sector customers. Our traffic signal technicians sometimes act as a liaison to our public agency customers and at all times strive to enhance existing customer relationships.

Required Qualifications:

- Minimum 5 years recent, verifiable experience in traffic signal construction and maintenance
- IMSA Level II Certification (or equivalent experience)
- Experience with VMS Master Controller, (will consider Bi Trans Quick Net experience)
- Excellent troubleshooting experience is a must
- Team oriented and customer focused
- Organized and self-directed
- Must have a valid Driver's License and clean driving record
- Must be able and willing to work at heights typically associated with repair, installation, and maintenance of traffic signals

We are an equal opportunity employer.
